2.	The CCF in his letter no. B3/319-3060/58 dated 9-3-59 ~~requests~~ states that the Revenue Department has built up the records for the release of forest land in S. no. 1 of Koralakoppa, Bhadravathi Taluk and recommends to Govt. to disforest and release 113 acres & 31 guntas of land in F.S. no. 1 referred to above for being granted to the expropriated ryots under Bhadra project.
3	This S. no. consists of in all 213-31 acres with the incidence of sandal trees, @ 2-10 per acre, with about 500 tons of fuel & without timber. The remaining 100 acres of the S. no., the CCF, recommends, to be retained for the purpose of set nursery and for raising irrigated plantation.
4.	From a perusal of the records, it is ascertainable that the cause and the request seem genuine & just.

15 In view of the very large production areas of the forest are going under Submersion of the Bhadra & Tunga projects, the CCF proposes to raise irrigated fuel plantations to feed Mysore Iron and Steel Works Bhadravathi. He requests orders of Govt to retain about 4,271-38 acres in various S. nos in the Minor & Reserve forests.

16 But it is not clear whether the areas proposed for ~~fuel~~ irrigation fuel plantations, belong to Forest or RD.

17 If approved the CCF will be asked to report the above ~~the~~ lyt at p. 73/c may be approved.

18) 27/10. IP The proposal made by the C.C.F. in his letter of 3-9-59 (p 65/c) is a very sound one especially when the Dept has a responsibility to supply fuel to the M I & S.W. Bhadravathi. The entire area A 4 271-38 G ~~out~~ of the irrigable area under B.R.R. Channel may be retained by the Forest Department for the formation of Fuel and Timber Plantations

Note.—Contn. Sheet

49) The Chief Engineer's letter is from pages 121 to 149 CF and it is for perusal. with reference to the para 23 ante. The Statement at page 123 CF gives details of the Govt lands, Forest, Gomal and Kharab lands under the command of the BRRB channel and BRLB channel and also the land irrigable out of that area. As may be seen, there, the forest land that comes under BRRB channel is 5140 acres and 01 guntas. whereas the forest land actually irrigable is 2,249 acres and 28 guntas. The chief conservator of Forests (Sec P. 65CF) states that 4,271 acres and 38 guntas are irrigable acres under BRR.B. channel and requests orders of Govt for retaining 2000 acres of that area to form fuel and Timber plantations in view of the large area (about 5129.10 A.G.) of forest land coming under Bhadra seed mission. In the light of the above the A.C.F.O proposal

Sub:- Raising of irrigation fuel plantations in the irrigable forest areas under B.R.R.B. Channel.

---

75 In his letter dated 3-9-59 the Chief Conservator of Forests reported to Government that there was an area of 4,271 acres and 38 Guntas of land which would become irrigable under the B.R.R.B. Channel in the Shimoga Circle and proposed that this area may be be given over to the Forest Department for raising irrigated fuel plantations. This proposal came immediately in the wake of several other proposals involving release of large tracts of various lands ~~for~~ for settlement of expropriated ryots. The Chief Conservator in the same letter also mentioned that if for any feason it is found impossible to release the entire area of 4,271 acres atleast 2,000 acres may be set apart for this purpose. The A. & F.Deptt. in the Government agreed with the Chief Conservator and referred the papers to the P.W.D. for concurrence who have now returned the file to us stating "this is evidently not possible since it is proposed to reserve all this area for allotment to dispossessed ryots of Bhadra and Saravathi Projects."

76 When initially the Chief Conservator's proposal was accepted by the A. & F. Deptt. the consideration was that in Shimoga District due to the collosal irrigation projects the Forest Department lost enormous tracts of lands under submersion and indirectly the Forest Deptt. is even now releasing in the same district further areas for rehabilitation of the expropriated

ryots.....

Note.—Contn. Sheet

ryots. According to figures readily available with the Government the total area so far released comes to more than 2,200 acres most of which is in the State Forests of Bhadravathi, Muthayyanakoppa, Kudi, Haridravathi, Karadibetta, Shikaripur, Shimoga and Narasimharajpur. Apart from this there are proposals to release a further area of an extent of 2,800 acres. It is very likely that much more area will be demanded and the Government in the A. & F. Department will not have any choice left but to release the area in view of the fact that settlement of expropriated ryots deserves priority treatment. There are, however, very strong grounds for the Forest Department to claim a reasonable percentage of irrigable areas including the portions of reserved forests which come under irrigation for compensating the loss of most productive forest areas which are either getting submerged or are being released for cultivation. Although the loss in the yield of timber due to the abovementioned reasons is appallingly high and cannot be made good by any means the formation of irrigated plantations would ease the difficult situation to some extent. It should also be seen that in Shimoga district we have very large commitments of keeping up continued supplies of fuel and charcoal to the Bhadravathi Iron and Steel Works which being a national venture should not be made to suffer at any cost. If a sustained supply of fuel and charcoal has to be maintained to

WD 07273—GPB—PZS—8,00,000—1960

the Iron .....

Serial No.

7657

the Iron Works it is imperative that enough plantations are raised from now alone to cope up with not only the present needs but also the future requirements. According to the technical opinion given by the Forest Officer it is understood that every irrigated acre of land would compensate roughly for the loss of 3 to 4 acres of dry forests which depend on natural rainfall. Most of the area which the Forest Department has lost due to submersion under the projects was in a belt which would receive very heavy rainfall and if we have to compensate atleast to a certain extent towards this loss the need for having irrigated plantations becomes all the more obvious.

77 In the circumstances stated above it is not understood how the P.W.D. have come to the conclusion that this small area of 4,000 acres of irrigable land cannot be evidently made available for forming fuel plantations. It may be emphasised here that what the Forest Department is requesting for is not anything out of P.W.D. lands or Revenue wastes but land belonging to Forest Department itself. The P.W.D. is therefore requested to reconsider their opinion and give concurrence to the proposal of the Chief Conservator of Forests.

Secretary,
A. & F. Deptt.

To
The Secretary to Government,
Agriculture and Forest Department,
Bangalore.

Sir,

Sub:-Disposal of lands in S.No.1 of Koralakoppa village, Bhadravati Taluk to the expropriated ryots of B.R.S. area.

In enclosing a copy of letter No.M-11-13/58 dated 22-1-1959 from the Conservator of Forests, Shimoga Circle along with the connected records on the above subject I have to state that the Revenue Department have built up records for the release of 91 acres 06 guntas of land in S.No.1 of Koralakoppa village, Bhadravati Taluk for being granted to the expropriated ryots under Bhadra Project. The S.No. in question is reported to be a sandal Reserve of 213 acres 31 guntas bearing about 500 tons of fuel and no timber. Since the area is coming under the irrigable zone of the B.R.R.B. Channel the Conservator of Forests recommends release of 113 acres 31 gunts of land reserving 100 acres for the purpose of forming a Central Wet nursery and also for raising irrigated fuel plantations under the II Five Year Plan. As the actual area required is 91 acres 06 guntas only this portion may kindly be ordered to be released for being granted to the expropriated ryots and the remaining area of 122.25 acres would be retained by the Department for forming Wet nursery and for raising irrigated plantation.

Orders of Government may kindly be communicated early. The case papers may kindly be returned when done with.

Yours faithfully,

(K.KALAMBI)
Chief Conservator of Forests.

No. 2478
13 MAR 1959
FOREST BRANCH

Copy of letter No.M-11-13/58-59 dated 22-1-1959 from the Conservator of Forests, Shimoga.

Sub:-Disposal of lands in S.No.1 of Koralakoppa village Bhadravati Taluk to the expropriated ryots of B.R.S. area.

Ref:-Letter No.1863 dated 12th January 1959 of the District Forest Officer, Bhadravati.

The Deputy Commissioner, Shimoga District, has called for the opinion of this department regarding the disposal of lands to the expropriated ryots of B.R.S. area.

The District Forest Officer, Bhadravati Division, Bhadravati has reported in his letter under reference , that Koralakoppa village is a 'Sandal Reserve' with an extent of 213 acres 31 gunta that it contains sparse growth of inferior species, yielding no timber but about 500 tons of fuel and that in view of the area coming under the irrigable zone of the B.R.R.B Channel, 113 acres 31 guntas of forest area may be ordered to be disafforested reserving 100 acres for the purpose of forming a central wet nursery which is included in the II Five Year Plan (for 1959-60), as also for raising irrigated fuel plantations. A copy of Bhadravati District Forest Officer's letter No.1863 dated 12-1-1959 which is self-explanatory is also enclosed for favour of information

Agreeing with the opinion of the District Forest Officer, I recommend that an extent of 113 acres 31 guntas may be disafforested and handed over to the Revenue Department. Orders of Government in this behalf may kindly be obtained and communicated early for taking further action.

The connected records received with Shimoga Deputy Commissioner's letter No.M4-PR 74/58-59 dated 16-11-1958 are enclosed for reference and return.

Copy of D.F.O. Bhadravati's letter cited above:-

Sub:- Disposal of lands in S.No.1 of Koralkoppa in favour of the expropriated ryots of B.R.S. area.

Ref:-Your No.M.11-13/58-59 dated 19-11-1958.

Survey No.1 of Koralkoppa village is a Sandal Reserve with an extent of 213 acres 31 guntas wherein some fuel plantations have been raised during the past* At the moment the area contains sparse vegetation comprising of stray casuarina trees and inferior species without any valuable timber and about 500 tons of firewood is estimated to be available. Sandal occurs scattered mostly immature the incidence varying roughly from 2 to 10 per acre.

2. In view of the area coming under the irrigable zones of B.R.R.B. channel, I propose that this Reserve may be ordered to be disafforested with the provisio to reserve a suitable plot of 100 acres for purpose of forming a permanent central wet nursery included in the Development schemes(II and III Five Year Plans) as also for raising irrigated fuel plantations.

The firewood available has since been exposed for sale in the public auction and the Range Officer, Bhadravati has been instructed to extract the available timber, which is estimated to be within about 250 cft and also simultaneously enumerate all the sandal trees.

In the even of Government orders to disafforest the area, the plot of 100 acres to be reserved for the department

P.T.O.

would be marked and the balance area would be handed over to the Revenue department after exploitation of ma[illegible].

Bangalore.

Sir,

Sub: Raising of irrigated fuel plantations in irrigable zones of the Bhadra Reservoir project.

G.O.No. AFD 141-FAF 59 dated 24-4-59.

I enclose herewith a copy of Shimoga Conservator of Forests letter No. B-47-38/59-60 dated 30-7-59 along with that of its two enclosures for your kind perusal and state that the suggestion of the Conservator of Forests Shimoga circle to take over 4271 acres -38 guntas of the irrigable areas under B.R.B.Channel for formation of fuel and timber plantations/deserves consideration in view of large productive forest areas going under submersion area of the project.

If for any reason it is found impossible to release all this area I request you kindly to move Government to permit the Department to retain atleast about 2000 acres for the purposes under consideration.

I request the favour of urgent orders in the matter.

Yours faithfully,

(K.KADAMBI)
Chief Conservator of Forests.

MYSORE GOVERNMENT SECRETARIAT
NO. 8463
5 SEP 1959
141. FAF 59
FOREST BRANCH

Copy of letter No. M. 47-88/59-60 dated 30-7-59 from the Conservator of Forests, Shimoga to the Chief Conservator of Forests in Mysore, Bangalore.

Sub: Raising of irrigated fuel Plantaion in the irrigable zones of the Bhadra reservoir project.

Your memo No. B2-319-3060/58 dated 9-3-59

In your memo Under reference you have enquired whether it is incumbent that all irrigable zones should be released. The District Forest officer, Bhadravti has since reported that it is not incumbent to do so. I, however, feel that, in view of threse areas attaining a high capacity for production of agricultural crops, it would be insisted that these areas should be relegated to agriculture.

The retention of the irrigable areas in the Minor Forest and much less in the District Forest, may therefore not find support in all quarters.

There are, however, strong grounds for the Forest Department to claim a reasonable percentage of the irrigable areas, including the portions of reserved forests which come under irrigation, for compensating the loss of most productive forest areas, which are getting submerged. Although the loss in the yield of timber is appallingly high and cannot be made good by any other means, the formation of these irrigated plantations would ease, to some extent, the difficult situation that will arise in supplying the fuel to Mysore Iron and steel works. It is therefore suggeste that about 4,000 acres of irrigable areas in the State Forest and Minor Forests as detailed in the statement enclosed, may be taken up for the formation of irrigated fuel and timber plantations.

Each irrigated acre would compensate for the loss of 3 to 4 acres of dry forests. No water rate should be charged to the Forest Department for the reason that heavy rainfall areas have gone under the water of the Bhadra reservoir besides the loss in the area, the loss in the precipitation has to be also compensated.

A statement giving the loss of productive forest areas under different categories and the loss in yeild is appended.

I therefore, request you to kindly move the Government for the retention of the areas, as detailed in the statement for the formation of irrigated plantations and to exempt the Department from the payment of water rate.

GOVERNMENT OF MYSORE

No. PWD 363 MBP 59

Mysore Government Secretariat,
VIDHANA SOUDHA.

Dated, Bangalore, 11 Decr. 1959.
Margashira 20 Saka Era 1881.

FROM

The *Secretary to the Government of Mysore,*
Public Works Dept., Bangalore.

To

The Chief Engineer,
Irrigation Projects,
MUNIRABAD.

Sir,

Sub: Raising of irrigated fuel plantations in the irrigable zones of the Bhadra Reservoir.

I am directed to enclose herewith a copy of letter No.B3-319 -3060/58 dated 3-9-1959 from the Chief Conservator of Forests, Bangalore on the above subject, and to request you to furnish a list of Govt. land village wise coming under the irrigable command of the Bhadra Reservoir Right Bank Canal. Since the information is urgently required, particulars may be furnished immediately.

Yours faithfully,

Sd/-
(C.J.Venkatesa Das)
Under Secretary to Government,
Public Works Department.

P.T.O.

Letter No.B3-319-3060/58, dated 3-9-1959 from the Chief Conservator, Bangalore, addressed to the Secretary to the Govt. of Mysore, Agriculture and Forest Dept., Bangalore.

Sub: Raising of irrigated fuel plantations in the irrigable zones of the Bhadra Reservoir Project.

Ref: G.O.NO.AFD 141-FAF 59, Dt. 24-4-59.

I enclose herewith a copy of Shimoga Conservator of Forests letter No.M-47-88/59-60 dated 30-7-59 along with that of its two enclosures for your kind perusal and state that the suggestion of the Conservator of Forests Shimoga Circle to take over 4271 acres - 38 guntas of the irrigable areas under B.R.R.B.Channel for formation of fuel and timber plantations deserve consideration in view of large productive forest areas going under submersion area of the project.

If for any reason it is found impossible to release all this area, I request you kindly to move Government to permit the Department to retain atleast about 2000 acres for the purposes under consideration.

I request the favour of urgent orders in the matter.

ASDO

Dear Sir,

I am desired to invite your reference to the discussion on 24-6-1960 with Sri C.J. Venkatashadri in my office regarding the total extent of land under BBRB channel irrigable and non irrigable on forest, kharab and Gomal lands coming under the command of the channel. The figures furnished by you do not indicate the whether the details said lands are those figures included in total extent of 2,44,663 acres mentioned in the revised estimate of BRP.

I am therefore to request you to report the details of the irrigable lands, both in the forest, kharabe and Gomal area of BRB channel later to the original estimate

Despatched in No. P.W.D.
Dated 28/6/60

Dear Sir,

I am desired to invite reference to your discussion on 24-6-1960 with Sri.C.J.Venkatesa Das in his office regarding the extent of land under Bhadra Reservoir Right Bank Channel irrigable and non irrigable out of Forest, Kharab and Gomal lands coming under the command of it. The figures furnished by you do not indicate whether the said lands are those included in total extent of 2,44,663 acres mentioned in the revised estimate of Bhadra Reservoir Project. I am therefore to request you to report the details of the irrigable lands both in the Forest, Kharaba and Gomal area of Bhadra Reservoir Right Bank Channel taken for the original estimate of Bhadra Reservoir Project amounting to Rs.17.75 Crores. Necessary documents if any, substantiating the details along with the other details of the lands also under Bhadra Reservoir Right Bank Channel may be furnished urgently.

Yours sincerely,

Sd/-

Sir,

Please refer to your letter no. B3-319-3060/58 dt 3-9-59 on the subject.

I am directed to state that Govt have decided that the lands which ~~come~~ came under the gross Commaand but which could not be irrigated as they were situated on higher level than the canal, should be reserved for forest plantations so ~~that~~ as to meet the fuel needs of the Bhadravathi Iron & Steel works.

I am to request you therefore to please send up modified proposals

It is accordance with the decision of Govt as stated supra for further order of Govt in the matter.

The matter may be treated as extremely urgent.

Yours faithfully,

To

Office of the Chief Conservator of Forests in Mysore, Bangalore.
Dated: 27 December 1961.

The Secretary to the Government of Mysore,
Agriculture and Forest Department,
Bangalore.

Sir,

Subject:--Release of Forest land in Survey No.1 of Korlakoppa - assignment to expropriated ryots of Bhadra Reservoir Submersion Area.

.....

AGRICULTURE & FOREST DEPARTMENT
No. 10 E-one
TAPPAL SECTION
Date 28/12
M. G. S.

Government in their No.AFD 141 FAF 59 dated 24th April 1959 have ordered the disforestment of 113 Acres 31 guntas in Forest Survey No.1 of Korlkoppa, Bhadravathi Taluk, for being granted to the expropriated ryots under Bhadra project and to reserve the remaining area of 100 acres of the Survey No. for forming a permanent Central Wet Nursery and also for raising irrigated fuel plantations. It is now reported that out of 113 Acres 31 guntas ordered to be disforested as per the Government order referred to above, an area of 30 acres is not irrigable being situated above the channel level. In view of this the three Man Committee consisting of the Deputy Commissioner, Shimoga, ~~Circle, Shimoga~~, the Conservator of Forests, Shimoga Circle, Shimoga, and the Special Officer for Rehabilitation, Shimoga, has decided to release 30 acres of land out of 100 acres reserved for forming wet nursery, etc., in lieu of 30 acres which is not irrigable. A copy of letter No.M.11-13/58 dated 17th November 1961 from the Conservator of Forests, Shimoga Circle, Shimoga, along with its accompaniment on the above subject is enclosed for perusal. I agree with this recommendation and request you to communicate orders of Government for disforestment of 30 acres out of 100 acres reserved for forming wet nursery, etc., in lieu of 30 acres out of 113 Acres and 31 Guntas which has been ordered to be disforested as per Government Order No.AFD 141 FAF 59 dated 24th April 1959. The Conservator of Forests, has already taken necessary

.....

Sub:--Release of Forest land in S. No.1 of Korlakoppa-assignment to expropriated ryots of Bhadra Reservoir Submersion Area.

.....

Adverting to the subject matter noted above, I write to state, that the Government in their Order No.AFD 141 FAF 59 dated 24-4-1959 (communicated in your Memo No.B3.319-3060/58-59 dated 8-5-1959) had ordered for the release of an extent of 113-31 acres in F.S.1 of Korlakoppa, for being granted to the expropriated ryots of Bhadra Project. The Government had further directed that the remaining area of 100 acres out of the S. No. referred to should be reserved for the purpose of forming a permanent Wet Nursery and also for raising irrigated fuel plantations.

2 The Special Officer for Rehabilitation, Shimoga, has now stated, that as per the above Government Order, grants have been made to 21 applicants and after surveying the area, it was found that the extent available fell short by 30 acres. Hence he has requested to arrange to release an extent of 30 acres of irrigable land, in a plot which is contagious to the land already released and granted.

3. This subject was discussed by the Three Man Committee on 4-7-1961 and decided, that 30 acres of land required now by the Special Officer for Rehabilitation may be released out of the area reserved for 'Forest Nursery' and the released area lying above the channel level which is not going to be irrigated ~~ex~~ may be handed over to the Forest Department. A copy of the extract of the decision taken by the Three Man Committee is enclosed for kind perusal.

4. I am instructing the District Forest Officer, Bhadravati to take needful action as per the decision taken by the Three Man Committee. In the meanwhile, I request you kindly to obtain orders of Government to effect the above changes in the State Forest, and communicate the same early.

=---------

MYSORE GOVERNMENT SECRETARIAT
NO. 2140
17 MAR 1962
FOREST BRANCH

Sir,

Sub:- Release of Forest Land in Survey No. 1 of Korlakoppa - Assignment to expropriated ryots of Bhadra Reservoir Submersion area.

Government in their order No. AFD 141 FAF 59 dated 24th April 1959 have ordered the disforestment of 113 acres, 31 gunthas in F.S. No. 1 of Korlkoppa, Bhadravathi Taluk for rehabilitating the expropriated ryots and to reserve the remaining 100 acres of the S. No. for forming a permanent Central Wet Nursery and also for raising irrigated fuel plantations. Subsequently according to the recommendation of the Three Man Committee constituted in connection with the release of forest lands for rehabilitating the expropriated ryots, an area of 30 acres out of 100 acres in S. No. 1 of Korlakoppa reserved for forming a permanent Central Wet Nursery, irrigated plantations, etc., was recommended to be disforested under this office letter of even number dated 27th December 1961 in lieu of 30 acres already disforested in favour of cultivation. But on reconsideration of the matter, I feel that the whole area of 100 acres in S. No. 1 of Koralkoppa as ordered in Government Order dated 24-4-1959 will be required for forming a Wet Nursery, irrigated plantation, etc., in view of the large scale irrigated plantations contemplated to be taken up by this Department. In the circumstances the recommendation made to Government under this office letter of even number dated 27-12-61 may be treated as withdrawn and orders communicated.

Yours faithfully,

CHIEF CONSERVATOR OF FORESTS.

Sir,

Sub:- Release of forest land in S.No.1 of Korlakoppa-assignment to expropriated ryots of Bhadra Reservoir Submersion area.

....

Government in their No.AFD 141 FAF 59 dated 15-3-1962 have ordered the disforestment of 30 acres out of 100 acres in S.No.1 of Korlakoppa reserved for forming wet nursery and for raising irrigated fuel plantation. But Government have been addressed under this office letter of even number dated 12-3-1962 stressing the need for retaining the entire area of 100 acres, as originally ordered in Government Order No.AFD 141 FAF 59 dated 24-4-1959, by the Department for forming a wet nursery and irrigated fuel plantation. In the circumstances reported to Government under this office letter of even number dated 12-3-1962, the orders now issued by Government may be cancelled and orders communicated.

To

The Secretary to Government,
Agriculture and Forest Department,
Bangalore.

MYSORE GOVT. SECRETARIAT
26 JUN 1962
FOREST DEPT. (FAF) SECTION

Sub:-Raising of irrigated fuel plantations in the irrigable zones of the B.R.P.

Ref:-Your letter No.AFD 141 FAF 61 dated 7-5-1962

--

MYSORE GOVERNMENT SECRETARIAT
NO. 4803
27 JUN 1962
FOREST BRANCH

The need for retaining the entire area of 100 acres in F.S.No. 1 of Koralkoppa for forming a permanent Central Wet Nursery was felt in view of the large scale irrigated plantations contemplated to be taken up by this Department and accordingly Government was addressed to reserve this area for the Department. However, in view of the orders already issued by Government in their letter under reference the matter may kindly be dropped. Instructions are being issued to the Conservator of Forests, Shimoga to take necessary action to release this area, as ordered by Government in their No.AFD 141 FAF 59 dated 15-3-1962.

Yours faithfully,

25.6.62

Chief Conservator of Forests.

AS/20/6(3)

AFD 141 FAF 59

"A"

The C.C.F. vide his letter Dt. 9-3-1959 has reported that S.No.1 of Koralakoppa village, Bhadravati Taluk ~~contains~~ with an area of 213-31-0 (A G A) is a sandal reserve bearing about 500 tons of fuel and no timber. Since the area is coming under the irrigable zone of the B.R.R.B. Channel, C.C.F., Shimoga Circle recommends the release of 113-31-0 (A G A) for the use of Expropriated ryots of B.R.S. area and the remaining area of 100 Acres of S.No.1 of Korlakoppa village be reserved for forming a Central Wet Nursery and also for raising irrigated fuel plantation under the II F.Y.P. C.C.F. has however stated that as the actual area required is 91-06 (A G) only, this portion (Viz: 91-06) may be granted to the expropriated ryots and the remaining area of 122-25 (A G) would be retained by the Department for forming Wet Nursery and for raising irrigated plantations.

"B"

However, Govt. in their G.O.No. AFD 141 FAF 59 Dt. 24-4-1959 have ordered the release of an area of 113-31-0 (A G A) in F.S.No.1 for being granted to the expropriated ryots under Bhadra Project. The remaining area of 100 Acres ~~should~~ has been reserved for the purpose of forming a permanent central wet nursery under the II F.Y.P.

"C"

C.C.F. vide his letter dated 3-9-1959 has suggested to take over 4271-38-0 (A G A) of the irrigable area under B.R.R.B. channel for formation of fuel and timber plantations in view of large productive forest areas going under submersion area of the project. C.C.F. has requested that at least an area of 2,000 acres may be retained for the purpose.

After prolonged correspondence between the

the Forest Department and the P.W.D. (Please read paras 72 to86 n/f), it was decided in the Cabinet that the lands which came under the gross command but which could not be irrigated as they were situated on higher level than the canal should be reserved for forest plantations, so as to meet the fuel needs of the Iron Works.

The C.C.F. in his letter Dt. 27-12-1961, has requested for the release of 30 acres in the reserved quota of 100 Acres (released in G.O. dated 24-4-1959) for Wet Nursery in lieu of 30 acres which is not irrigable being situated above the channel level. Accordingly, the proposal of the C.C.F. was considered and orders issued vide G.O. dated 15-3-1962. As seen from the C.C.F. letter Dt.27-12-1961, he has directed the C.F., and before the issue of the G.O., C.F has taken necessary action as per the decision of the Three Man Committee.

p.175 c/7

p.179 c/7

But the C.C.F. vide his letter Dt.12-3-1962 and 22-3-1962, has requested Govt. to ~~consider~~ quasi-abbreb the G.O. Dt. 24-4-1959 and to cancel the G.O. Dt.15-3-1962.

GOVERNMENT OF MYSORE

18/10/60.

Raising of irrigation fuel plantations in the irrigable forest areas under B.R.R.B. Channel.

In his letter dated 3-9-59 the Chief Conservator of Forests reported to Government that there was an area of 4,271 acres and 38 Guntas of land which would become irrigable under the B.R.R.B. Channel in the Shimoga Circle and proposed that this area may be given over to the Forest Department for raising irrigated fuel plantations. This proposal came immediately in the wake of several other proposals involving release of large tracts of various lands for settlement of expropriated ryots. The Chief Conservator in the same letter also mentioned that if for any reason it is found impossible to release the entire area of 4,271 acres atleast 2,000 acres may be set apart for this purpose. The A & F Dept. in the Government agreed with the Chief Conservator and referred the papers to the P.W.D. for concurrence who have now returned the file to us stating "this is evidently not possible since it is proposed to reserve all this area for allotment to dispossessed ryots of Bhadra and Saravathi Projects."

When initially the Chief Conservator's proposal was accepted by the A & F Dept. the consideration was that in Shimoga District due to the collosal irrigation projects the Forest Department lost enormous tracts of lands under submersion and indirectly the Forest Dept. is even now releasing in the same district further areas for rehabilitation of the expropriated ryots. According to figures

1154/9.

please put this on the noticeboard — myself today 16/1

Read at 5-30 PM 17/10/60

readily available with the Government the total area so far released comes to more than 2,200 acres most of which is in the State Forests of Bhadravathi, Muthayyanakoppa, Kudi, Haridravathi, Karadibetta, Shikaripur, Shimoga and Narasimharajpur. Apart from this there are proposals to release ~~the~~ a further area of an extent of 2,800 acres. It is very likely that much more area will be demanded and the Government in the A & F Department will not have any choice left but to release the area in view of the fact that settlement of expropriated ryots deserves priority treatment. There are, however, very strong grounds for the Forest Department to claim a reasonable percentage of irrigable areas including the portions of reserved forests which come under irrigation for compensating the loss of most productive forest areas which are either getting submerged or are being released for cultivation. Although the loss in the yield of timber due to the abovementioned reasons is appallingly high and cannot be made good by any means the formation of irrigated plantations would ease the difficult situation to some extent. It should also be seen that in ~~the~~ Shimoga district we have very large commitments of keeping up continued supplies of fuel and charcoal to the Bhadravathi Iron & Steel Works which being a national venture should not be made to suffer at any cost. If a sustained supply of fuel and charcoal has to be maintained to the Iron Works it is imperative

that enough plantations are raised from now alone to cope up with not only the present needs but also the future requirements. According to the technical opinion given by the Forest Officers it is understood that every irrigated acre of land would compensate roughly for the loss of 3 to 4 acres of dry forests which depend on natural rainfall. Most of the area which the Forest Department has lost due to submersion under the projects was in a belt which would receive very heavy rainfall and if we have to compensate atleast to a certain extent towards this loss the need for having irrigated plantations becomes all the more obvious.

In the circumstances stated above it is not understood how the P.W.D. have come to the conclusion that this small area of 4,000 areas of irrigable land cannot be evidently made available for forming fuel plantations. It may be emphasised here that what the Forest Department is requesting for is not anything out of P.W.D. lands or Revenue wastes but land belonging to Forest Department itself. The P.W.D. ~~It would~~ therefore ~~be necessary to point out these facts to the P.W.D. and~~ request ~~them~~ to reconsider their opinion and give concurrence to the proposal of the Chief Conservator of Forests.
